

Complete SaaS Feature Checklist

School Management System - Including AI Marketing & Stationary Inventory

Tenant & Access Control

Feature	Description	Priority
Multi-Tenant RLS Database	PostgreSQL Row-Level Security ensuring School A cannot access School B data.	Critical
Super Admin Dashboard	Global view to onboard new schools, manage SaaS subscriptions, and monitor usage.	Critical
Role-Based Access Control (RBAC)	Basic roles: School Admin (full access), Teacher (limited to assigned classes).	High

Student Management (SIS)

Feature	Description	Priority
Student Directory CRUD	Interface to add, edit, and view student profiles (demographics, emergency contacts).	Critical
Class & Section Setup	Ability to create grades (e.g., Grade 10) and sub-sections (e.g., Section A, B).	Critical
Digital Admissions Form	Public-facing Next.js form for parents to apply; routes data to a 'Pending' queue.	High

Academics & Daily Ops

Feature	Description	Priority
Fast Attendance Interface	Mobile-optimized grid for teachers to mark daily roll call in under 10 seconds.	Critical
Basic Timetable View	Static view of daily schedules for teachers and classes (no complex conflict algorithms yet).	Medium
Class & Section Summaries	Dashboard view showing classes, their active sections, and total student headcount per section.	High

Financials

Feature	Description	Priority
Fee Structure Configuration	Define standard monthly tuition fees per grade.	Critical

Automated PDF Vouchers	Generate downloadable fee invoices using Python.	High
Payment Collection Dashboard	Track 'Paid' vs 'Pending' statuses and generate a defaulters list.	Critical

Communications

Feature	Description	Priority
WhatsApp Integration (API)	Automated WhatsApp messages to parents for absent alerts and standard notices.	High
Bulk Fee WhatsApp Notifications	Broadcast automated fee reminders to all parents simultaneously via WhatsApp API.	Critical

ID Cards & Certificates

Feature	Description	Priority
Student ID Card Generator	Multiple customizable Next.js templates/designs for printing student ID cards.	Medium
Certificate Generator	Multiple design templates for issuing completion or achievement certificates.	Medium

Global Navigation & Search

Feature	Description	Priority
Global Search Engine	Omnibar search to quickly find students, teachers, classes, or invoices from anywhere in the app.	High

AI Agents & Automation

Feature	Description	Priority
AI Homework Agent	Agentic workflow allowing teachers to generate and distribute class-specific homework via natural language.	High
AI WhatsApp Notification Agent	Agentic system to automatically draft and route context-aware notifications to relevant WhatsApp groups.	High

Stationary & Inventory

Feature	Description	Priority
Stationary Point of Sale (POS)	Digital storefront and inventory management for student stationary, books, and uniforms.	Medium

AI Marketing Studio

Feature	Description	Priority
---------	-------------	----------

AI Social Media Designer	Chat-driven AI interface to modify predefined social media templates (e.g., 'Make it a winter theme').	High
Print & Paper Design Hub	AI-assisted generation of high-resolution paper designs for flyers, brochures, and event posters.	Medium
